

DECLARATION OF PACKAGING MATERIAL INFORMATION

According to the requirements of the EU Packaging and Packaging Waste Regulation (PPWR)

1. Manufacturer / Supplier Identification

Company	GLOBALFOL s.r.o.
Registered office	U Korecnice 2293, 688 01 Uherský Brod, CZ
Production plants	U Korecnice 2293, 688 01 Uherský Brod, CZ
Company ID	27712974
VAT ID	CZ27712974
Website	www.globalfol.cz
E-mail	globalfol@globalfol.cz

2. Product Identification

Products	Obalka plast.B12 135x225mm bila Obalka plast.C13 165x225mm bila Obalka plast.D14 195x275mm bila Obalka plast.E15 235x275mm bila Obalka plast.F16 235x350mm bila Obalka plast.G17 245x350mm bila Obalka plast.H18 285x370mm bila Obalka plast.J19 315x455mm bila Obalka plast.K20 370x480mm bila Obalka plast.J19 315x455mm bila L
Product Type	Packaging material
Material	Polyethylene
Intended Use	Protection of packed goods during storage and transportation
Material Code	04 – LDPE

3. Description of Packaging Material

The supplied product is a multilayer protective packaging material based on polyethylene film manufactured by extrusion technology.

The product is intended for protection of goods against mechanical damage during handling, storage, and transportation.

4. Material Composition

Virgin PE	50 %
Recycled PE (PIR)	45 %
Additives / Masterbatch	5 %

The recycled material used originates from internal technological recycling processes of GLOBALFOL s.r.o.

GLOBALFOL s.r.o.

U Korečnice 2293, 688 01 Uherský Brod, IČO 27712974, DIČ CZ27712974

globalfol@globalfol.cz, www.globalfol.cz

To the best of our knowledge, the product does not intentionally contain substances restricted under applicable European legislation in concentrations exceeding legal limits.

5. Recyclability Information

The product is technically recyclable within standard polyethylene (PE) film recycling streams.

The bubble envelope is designed as a predominantly mono-material PE packaging product supporting material recycling.

Recyclability depends on the availability of local collection, sorting, and recycling systems for plastic films.

GLOBALFOL s.r.o. continuously monitors developments and implementation requirements related to the PPWR.

6. Recycled Content

Post-consumer recycled content (PCR)	0 %
Post-industrial recycled content (PIR)	45 %

The PIR material originates from internal recycling of production scraps and technological waste.

7. Compliance with PPWR and Related Legislation

GLOBALFOL s.r.o. states that the product is manufactured in accordance with currently applicable European legislation relevant to packaging materials based on currently available technical and regulatory information.

The company continuously implements requirements of:

- Packaging and Packaging Waste Regulation (PPWR)
- Directive 94/62/EC on packaging and packaging waste
- REACH Regulation (EC) No. 1907/2006
- CLP Regulation (EC) No. 1272/2008 within the relevant scope

Based on currently available technical data, the product:

- supports material recycling
- contains partial recycled content
- is suitable for sorting within PE plastic streams
- does not intentionally contain hazardous substances above legal limits

8. Available Documentation

- Technical Data Sheet (TDS)
- Material specification
- Internal quality documentation
- Production specifications
- Confirmation of recycled content

9. Declaration

This declaration has been prepared based on currently available technical data, internal production specifications, and information available at the date of issue.

This document serves as an informational declaration regarding material composition and environmental characteristics of the product in relation to PPWR requirements.

10. Disclaimer

This document is provided for informational purposes only and does not constitute a formal legal certification of compliance unless explicitly stated otherwise.

The information contained herein is based on current knowledge and may be subject to change following future updates of applicable legislation or technical guidance related to the PPWR.

Uherský Brod, 28 May 2026
